Thanks Amy, I agree that the review is not being done by the NRRB, and just to further clarify my role in this exercise, as I have pointed out a few times:

> I also would like to clarify that what is attached (the "12.19.12 file" below) is not a "memo from Charles" but rather a compilation of Board members' concerns, comments and recommendations; as I said in my December 20th email (and on other occasions): "Since I often help Board members put their comments and recommendations into writing, I volunteered to do the same here." In other words, it is not my memo, it's the Board's thoughts, comments, concerns etc that I offered to compile from Board draft memos – those of us who were asked to carry out this exercise (both Board and non-Board members) believed it was the most appropriate way to proceed in light of the Board's review of the site in February, 2012.

thanks

Good morning – The review of the work plans is not being done by the NRRB. The reviewers are Charles Openchowski, Dave Bartenfelder, and Stuart Walker.

Hi Charles,

Thanks for copying me on your July 31 email to Dan and Doug. Just to clarify one point -- Region 7 did ask the PRPs to evaluate alternative landfill caps as the NRRB had suggested. The PRPs submitted a work plan addressing this matter and we now look forward to receiving comments on it from the NRRB.

Audrey B. Asher
